

Vinoy Club

May 18, 2017

Several years ago we renovated our driving range and putting green. We wanted to give our members and guests a better place to warm up and work on their game. We also wanted to create a better first impression. I needed to make a statement, an icon that would catch the eyes of everyone entering the area. It had to be a clock and not just any clock, the best clock. One that would last and stand the test of time; a clock that small towns, prominent banks and universities use. I started searching and was headed in the wrong direction, when an associate mentioned your company. Once I visited your website, read your history since 1842 and spoke to your team, I knew I had found the right fit for our club. That decision continues to pay dividends and will for years to come.

Sincerely,

Randy Mosley
Director of Golf
Vinoy Golf Club
