

July 1, 2017

The Summit Hills Country Club in Crestview Hills, Kentucky has been, and continues to be, the premier Country Club in Northern Kentucky. The recent installation of our own Verdin clock is a very welcome addition as the centerpiece to our first tee complex.

The magnificent clock stands 12' 8", has four illuminated dials and was manufactured and installed by the Verdin Company of Cincinnati, Ohio. Verdin bells and clocks have been manufactured since 1842. We selected Verdin to design and install our clock based upon their outstanding reputation for quality craftsmanship and superior customer service.

We are absolutely delighted with our post clock and would highly recommend Verdin to design and install one for your club.
